

**1) Optimize Professional Continuing Education and 2) Modify Joint Professional Military Education II Requirements:**

- Includes re-examining requirements for military education, with a view toward reducing duplication and capitalizing on the commonality of courses across the services.

**3) Allow for Contracting of Security Guards:**

- Proposed legislation provides the Services the flexibility to contract for security guards, at small locations.

**4) Revise Davis-Bacon Act Thresholds:**

- Proposed legislation to link the contract value threshold, which requires the mandatory use of prevailing wage rates under federal construction contracts, to the Simplified Acquisition Threshold.

**5) Improve Interservice Product Quality Deficiency Reporting (PQDR) Business Process:**

- Provides for improved visibility of defective parts reports among the Services and will reduce processing delays and lead to quicker resolution of systemic problems.

**6) Establish Process for Property Conveyance for Conservation Purposes:**

- Legislative proposal to allow the Department to more easily convey surplus property for conservation purposes.

**7) Establish Funding Flexibility Within a Program, 8) Increase Flexibility of Expired Year Funds, 9) Increase Expense/Investment Threshold, and 10) Establish O&M Close-Out Flexibility:**

- Proposed legislation to simplify certain financial transfers and improve the Services' flexibility in managing their financial resources.

**11) Streamline Administrative Coordination Process:**

- Streamlines the Department's internal administrative coordination process, a focus area at the heart of bureaucracy.

**12) Streamline Contract Close-Out Process:**

- An aggressive effort to close out over 400 contracts on which work is physically complete, but remain open for final administrative actions.

**13) Streamline Clinger-Cohen Implementation:**

- Aligns the Clinger-Cohen Act requirements with internal DoD acquisition documentation, to preclude reinventing the wheel for documentation sake.

**14) Eliminate Excise Tax on DoD Tactical Vehicles:**

- Streamlines federal tax payments for certain equipment items, pending Department of the Treasury concurrence.

**15) Commercialize Military-Developed Systems:**

- Proposed legislation will facilitate the commercialization of military-developed systems and their transition to civilian use

**16) Commercializing Acquisition: Raise TINA Thresholds:**

- Proposed legislation allows for a raise in the threshold from \$550K to \$7.5M, thereby aligning it with the Cost Accounting Standards' (CAS) threshold.

**17) Virtual IT Marketplace:**

- Provides a one-stop shop for Virtual IT hardware, software and selected services.

**18) Streamline the General Officer/Flag Officer Nomination Process:**

- Provides a more streamlined nomination process, and at the same time allows the Services timeliness and flexibility in the movement of General/Flag Officers.
